

## Gents Measurement Guides

People come in all shapes and sizes and measuring them can sometimes be a bit of a challenge! The secret is to make sure that your customer is relaxed and standing straight, looking straight ahead and not down at the measuring tape. Try to make sure they are not sucking in their stomach or holding their breath. There is no point in making a made-to-measure garment which only fits when you are wearing a corset!

### Gents Kilt

1. Waist measurement, over the navel and firm on the hipbone.
2. Hip measurement over widest part
3. Length from top of hip bone to half an inch below the top of the kneecap.
4. Add 2" Rise for Full Regulation Kilt

### Gents Trousers

1. Waist over the navel and firm
2. Hip over widest part
3. Inside Leg
4. Outside leg including waistband. Trousers should break on the crown of the shoe.

### Waistcoat

1. Waist, easy
2. Chest
3. Length – Nape to Waist
4. Length - Shoulder to Shoulder
